

BEST RIDES. BEST PARKS.

2016 Water Ride Planner

30 years of water park success.

When I started ProSlide almost 30 years ago, the water park industry was in its infancy.

What drew me in so deeply was the pioneering energy in the parks and the entrepreneurs with the attitude ‘if we build it, they will come’.

As exciting as those early days were, none of us could have predicted just how far the industry would come: water parks that rival theme parks, hotel resorts centered around water attractions, strong growth in all corners of the world and so much more.

From the beginning I knew that innovation would be critical to our customers’ success. So we set about creating attractions that would help our customers differentiate their parks and deliver the most memorable guest experiences.

To this day, we have the very good fortune of working with the best of the best. I’m humbled by the opportunity to become your trusted partner: driving continuous innovation and delivering premium quality.

On behalf of everyone on the ProSlide team, we thank you for your ongoing partnership. And we look forward to the next 30 years of water park success!

Sincerely,

A handwritten signature in blue ink that reads "Rick Hunter". The signature is written in a cursive, flowing style.

Rick Hunter

Celebrating 30 Years

Innovation and customer focus drive our business.

As a former ski racer, ProSlide CEO Rick Hunter’s goal has always been to mirror skiing’s smooth turns, steep grades and big drops in our water rides.

When he founded ProSlide in 1986, Rick partnered with one of Canada’s largest sailboat manufacturers. This powerful team introduced the highest-quality fiberglass – built to withstand harsh marine conditions – to the water park industry.

Rick Hunter – Canadian Master's Champion

Defining ‘World’s Best’. In the 1990’s, demand for water parks was exploding. Dozens of vendors were building basic rides; most of them poorly designed.

With Rick’s skiing experience, he understood exactly how he wanted the rides to feel and the physics to make it happen.

So we spent our early years significantly improving ‘classic’ water rides. We used compound curves for faster, tighter turns. Introduced massive fiberglass flumes – double the width and triple the height – to accommodate the world’s first six-person rafts. Invented mat racers with new looping shapes. And so much more.

Inventing iconic. As the industry matured, our customers began asking for rides that would help them stand out among their competitors. Rides that could handle the large numbers of guests they were attracting.

It was this demand that drove us to invent radical new features, like the TORNADO® funnel and the BehemothBOWL™. Both rides, with unheard of capacities, took the market by storm. And changed the landscape of water parks forever.

The immediate success of these iconic features quickly evolved into a suite of products sized for tighter spaces and smaller parks.

To this day, ProSlide iconic rides are considered must-have attractions for every new park.

Wet'n'Wild Sydney, Australia

Holiday World, USA

Leading the technology revolution. Innovation is the lifeblood of this industry and is what drives the ProSlide team. In the last five years alone, we’ve introduced more than 25 new products.

Rides like our HydroMAGNETIC® LIM water coasters. And the newest RocketBLAST™ coaster that takes water propulsion to a new level. As well as our massive hybrid rides that combine two and three individual rides into a single experience.

Much of this innovation was driven by customer demand. Not only did you encourage us to challenge the status quo but you trusted that we could make it happen.

Together we have evolved this industry to where it is today. For that, we thank you!

Best Rides. Best Parks.

30 years creating the world's best water rides.

1986. Rick Hunter launches ProSlide. With his ski racing experience, he knows exactly how the rides should feel and the physics to make it happen.

Inventing iconics. The birth of our massive ride features – with their massive capacities – help our customers grow and differentiate.

Defining world's best. The water park industry is growing in leaps and bounds. ProSlide is focused on inventing and improving the classics.

Global leader.
Creating legendary experiences at water parks all over the world.

Technology revolution.
Relentlessly focused on innovation, we invent game-changing LIM water coasters, hybrid rides with multiple features and much more.

Best New Water Ride Awards

More than all other manufacturers combined.

Over our 30 years, we've worked hard to make our water rides even more innovative. We're grateful for the overwhelming recognition we've received from our industry's leading associations.

IAAPA Industry Impact Award

Recognizes the top innovation in the attractions industry. Only ProSlide has multiple awards.

- 2012 HydroMAGNETIC MAMMOTH
- 2004 BehemothBOWL 60
- 2003 TORNADO 60

IAAPA Best New Water Ride or Product – First Place

More top awards than all other manufacturers combined.

Constant Innovation

Iconic inventions for successful water parks.

Water ride specialists

We design and manufacture water ride attractions. This focus lets us concentrate all of our considerable expertise on building the best water rides in the world.

Game changers

Innovation is in our DNA. We have a rich history of introducing game-changing water ride technologies and enhancing them to maximize ride performance. Every year, we make more investments in R&D than any other ride manufacturer.

Award-winners

70+ awards in 30 years! With more first-place ride awards than all other water slide manufacturers combined, ProSlide is the recognized industry leader.

- Three IAAPA Industry Impact awards, recognizing the top attraction innovations. ProSlide is the only company in the entire amusement industry to win more than one.
- Well over 30 Best New Ride awards from our industry's most well-respected global associations – the International Association of Amusement Parks and Attractions (IAAPA), World Waterpark Association (WWA) and more.

Wet'n'Wild Sydney, Australia

Ride Performance

Every detail matters.

Legendary water rides

Sleek, impressive design. A smooth, high-thrill ride. We're obsessed with all aspects of ride performance. So how do we create the ultimate water slide? ProSlide's technology combines engineering prowess with constant innovation.

Predictable ride path

We apply precision engineering, state-of-the-art computer modeling, extensive experience and the widest variety of fiberglass components to ensure riders and rafts – of all sizes – take the same smooth and electrifying path down the ride.

Operational efficiency

Because we've been running our own water park since 1992, we see operations through the eyes of our clients. We are always evolving our water rides to meet your needs.

Customer Focus

Invested in water park success.

Personal commitment

It's not just our innovative products that define us as market leaders. We're invested in our customers' success on a personal level.

A high quality collaboration

Building a water park should be fun and exciting. We're successful if you love your finished ride and enjoyed the process of creating it.

Enduring safety

We know one of your biggest concerns is guest safety. It's ours as well. That's why we were the main architects of water ride safety standards with the ASTM, and why we still co-chair the committee.

And why we are still building the thickest, strongest fiberglass in the world. Each ride piece is made by hand in North America and inspected at every stage.

Our customers get long-lasting, safe products that thrill guests for decades to come.

What do 4 of the world's top 5* water parks have in common? ProSlide rides!

*As ranked by Trip Advisor

*"In my 30+ years designing and building attractions I've learned a lot of things.
Number one: world class parks start with world class attractions."*

Chip Cleary, Splish Splash Water Park Creator/President of Fantasy, Fiction and Reality

Water Park Planning

The roadmap for a perfect water park.

Large Outdoor Water Park

Medium Indoor/Outdoor Water Park

Small Indoor Water Park

Great water parks tell a compelling story. Guests flow effortlessly from one high impact attraction to the next. Every element runs at high efficiency and capacity.

How do you move from an empty space to a great park? With ProSlide!

A ProSlide water park plan helps you:

- Use your space to best advantage.
- Ensure optimal guest flow.
- Create the 'wow' factor with iconic signature attractions and creative themes.
- Maximize capacities with the right mix of rides.
- Future-proof your park for long-term impact.

Decades of water park experience

- Our water park planning team includes veteran architects and designers from both the amusement and water park industries.
- Our rich ecosystem of expert partners can provide engineering, schematic design, operations management, construction specifications, tender management and more.

"With their creativity and experience, ProSlide shapes our dreams into the best water parks in the world."

Wanda Group

Custom Design

Building the perfect ride. Every time.

8-Flume Custom Complex

Why you need custom rides

- Take advantage of your unique footprint and topography.
- Stand out in a crowded market.
- Achieve your business goals.

The many ways we customize

Ride path. Our rides are tailored to fit your demographics, target capacities and budget perfectly.

Hybrids and custom complexes. ProSlide custom complexes are massive entertainment hubs that combine almost any mix of rides on a single tower.

The ultimate customization: ProSlide hybrid rides that combine two, three or more stand-alone features into a single ride path.

Ride options: the sky's the limit. Every ProSlide ride gives you options. Enclose a feature, add a drop launch, offer a ride-up conveyor and so much more.

Three reasons only ProSlide delivers true custom design:

- 1. Deep understanding of ride physics.** We've invented or significantly innovated every water ride we sell so we know exactly what can be customized and how.
 - 2. Widest range of fiberglass profiles.** Because of our 30-year history of constant innovation, we have the largest inventory of fiberglass flume profiles in the industry. We can create rides with an almost limitless variety of twists and turns.
 - 3. Complete commitment to your success.** A fundamental ProSlide value: every customer deserves the perfect ride. That's why building the world's best water rides is a mission we will not compromise.
-

Broad experience.

Outdoor Parks

Superb attractions to thrill all ages.

ProSlide has helped create the most iconic outdoor water parks in the world. How do we do it?

- **Customization**
We work with your site's natural features to take best advantage of your space and budget.
- **Innovative products**
Our innovative rides thrill all ages and maximize capacity.
- **Expert planning**
Our water park planners set the perfect entertainment level for your needs.
- **Deep experience**
No one knows outdoor water parks better.

Six Flags Great America, USA

Popsea at Joyfulland, China

New Parks

Redefining world's best.

New water parks need to make a big splash, then drive strong revenue for decades. Does your project have all the right ingredients?

- **Great rides to please all**
Match iconic rides with classics to create the perfect mix.
- **A solid master plan**
A comprehensive roadmap for a successful water park.
- **Future-proofing**
Products and services for long-term impact.
- **A strong industry partner**
Work with the strongest and most knowledgeable partner.

Indoor Parks

Thinking outside the box.

Creating a world-class indoor park is all about using your limited space to best advantage. Here's how we stand out:

- **Experience**
Decades of ride design, operations and master planning for indoor parks make ProSlide the perfect partner.
- **Customization**
We customize every ride we build. Our design expertise and widest range of fiberglass parts let us interweave and stack rides – even big ones – to fit tightly in your space.
- **Products**
Our wide variety of water rides and options lets you solve space constraints while creating big impact and marketing buzz.

Great Wolf Lodge Pocono Mountains, USA

Splish Splash, USA

Expansions

Fitting in the perfect rides.

When operators want to add a water ride to an existing park, it's no surprise that they turn to ProSlide for help.

- **Experience**
We help build the world's most prestigious water parks. And we're the ride supplier of choice for their expansions.
- **Custom design**
We've created the widest range of fiberglass parts in the industry. Perfect for tailoring rides to fit your space precisely.
- **Innovative products**
Our wide range of rides and many space-saving innovations let expanding parks easily fill gaps.

"Virtually every ride in our resorts is made by ProSlide. We truly value the partnership."

Tim Black, Great Wolf Lodge

"Our ProSlide LIM water coaster, has taken our world-class park to a whole new level."

Mike Bengston, Splish Splash

Raging Waters San Dimas, USA

Water Coasters

Wet and wild hills and valleys.

Ride experience. These speeding, high-g rides are like roller coasters, only better: they're wet!

Gravity drops then smooth linear induction motors (LIMs), or our new patented nozzle system, power your guests up and down the steepest hills and around the corners at top speed. Unlike roller coasters, rafts aren't attached to the ride: they're sliding!

Exclusive technology. Almost a decade ago, ProSlide took fast, efficient LIM technology and developed it into high-performance water coasters. The LIM water coaster was born. And just opened: the newest RocketBLAST water coaster. It marries technology from our award-winning LIM coasters with turbine technology.

With more than 15 patents, ProSlide owns modern water coaster technology. Our exclusive expertise keeps ride performance high and operations smooth and safe.

ProSlide water coasters are:

- High performing: Patented nozzles in BLAST rides deliver 100% steeper hills. LIM technology makes trains fast and safe. And water rides smooth and exciting.
- Efficient: Sophisticated control systems, sensors and zone-blocking optimize operations.
- High capacity: Entertaining up to 1,080 guests an hour.
- Safe and reliable: The most advanced operational features, including a remote, real-time diagnostic service.

Industry leadership. 25 water coaster installations since 2006.

“

ProSlide delivers truly innovative water rides that make our parks stand out.

James Judy, Palace Entertainment

”

HydroMAGNETIC® MAMMOTH®

The rafting coaster.

6 Person

~1080
Per Hour

Everland Caribbean Bay, South Korea

Yas Waterworld, UAE

Holiday World, USA

“ProSlide rides rank #1 with our guests. Huge wow factor.”

Tim Mow, Yas Waterworld

Take our legendary MAMMOTH® rafting ride add high-powered uphill HydroMAGNETIC technology plus a lot of specialized expertise and what do you get? The world’s only six-person LIM water coaster!

Our biggest LIM water coaster, the **HydroMAGNETIC MAMMOTH** delivers roller coaster impact to your water park.

And our patented CloverWHEEL™ rafts accommodate up to 1,080 riders per hour!

HydroMAGNETIC® ROCKET™

Bobsled run on water.

4 Person
~720
Per Hour

OCT Tianjin Happy Valley, China

This fast and furious water coaster will forever change the way people experience water rides. The narrow inline boats make guests feel like they're riding a bobsled!

The world's first LIM-powered water coaster, the **HydroMAGNETIC ROCKET™** moves up to 720 guests an hour, in a tight footprint and at an affordable price.

The longest HydroMAGNETIC ROCKET, Holiday World's Wildebeest, has won the Best Waterpark Ride every year since it was installed. When you go big, it pays off!

"Leave it to ProSlide to create such an amazing water coaster."

Matt Eckert,
Holiday World Splashin' Safari

Holiday World, USA

Dollywood's Splash Country, USA

RocketBLAST™

Jet propulsion!

3 Person

~540
Per Hour

Siam Park, Spain

The nimble **RocketBLAST** has quick turns with fast drops and super smooth acceleration.

The RocketBLAST water coaster marries technology from our award-winning LIM coasters with turbine technology to take water propulsion coasters to a whole new level.

From the minute the ride starts, the three-person boat surrenders to gravity and rushing water, dropping into a high-speed chute, a sharp turn, another drop. Then water jets – sequentially positioned along the ride – power your guests up and down the steep hills and around corners at top speed.

This coaster lets competitive riders ‘race’ each other to the finish in a dueling layout format.

Also available in a two-person ride configuration.

Siam Park, Spain

Saucers

Drop and dive!

Ride experience. Thrill-seekers on two-person tubes speed through dark tunnels and rocket into the wide-open expanse of the massive saucer features.

Moving at an exhilarating speed, the tubes are banked high up on the wall, glued by centrifugal force. The steep angle of the saucers creates a ‘drop-and-dive’ sensation as riders race along its edge. The feeling is like a World Cup giant slalom ski race, in perfect control!

Even with the tube approaching perpendicular, it sticks tight to the wall all the way through the saucer. And is perfectly positioned to slide into the next feature, or through the narrow exit, with ease.

Exclusive technology. A foundational design element of this ride is the ProSlide compound curve. It combines arcs with different radiuses for a faster, tighter ride and stronger g-forces. The precise roll and pitch of the saucer creates maximum speed and centrifugal force. This is a world’s first, one-of-a-kind ride with patent-pending technology.

FlyingSAUCER™ 30

2 Person

~600
Per Hour

Learn more. www.proslide.com/Saucers

“

Our guests love speed and are looking for revolutionary rides; that’s Singha.
Christoph Kiessling, Siam Park

”

Wet'n Wild São Paulo, Brazil

Funnels

Most known. Best loved. Must have.

Ride experience. Whether a single giant funnel or a series of linked features, ProSlide TORNADOs offer a unique and exciting ride experience.

Our TORNADO rides start with a serpentine course to build anticipation. Rafts drop from the flume into the wide-open funnel, where riders swing between free fall and weightless hang time.

The most successful water parks have a variety of TORNADOs to offer a full range of thrills:

- Big funnels deliver serious speeds, maximum-gs and massive sweeps that draw out and intensify the thrills.
- Smaller TORNADOs combine to deliver surprise and fast-paced variety for kids and adults alike.

Exclusive technology. Engineered for excitement, the ProSlide TORNADO has a completely unique, true funnel shape that offers a high impact experience.

The physics of the patented funnel allows rafts to travel higher up the steep walls until almost vertical! Unparalleled excitement in perfect safety.

Industry leadership. 185+ funnel ride installations since 2003.

Learn more. www.proslide.com/Funnels

“

Brazil loves the ProSlide TORNADO and so do we!

Alain Balducci, Wet'n Wild São Paulo

”

TORNADO® 60

The eye of the storm.

6 Person

~1080

Per Hour

TORNADO® 45

Ride the cyclone.

4 Person

~720

Per Hour

Jamberoo Action Park, Australia

Wet'n'Wild Las Vegas, USA

Friends and families share the ride of their lives in the massive **TORNADO 60**.

A giant among rides, it thrills with bursts of speed, high-gs and weightless hang time. The TORNADO 60 impresses from miles away.

Its sheer size maximizes the exhilaration and the time to savor it. Guests just keep coming back to this must-have ride.

TORNADO 60 is huge in both visual impact and legendary ride. No wonder it scores #1 favorite in guest surveys.

“We’re ecstatic with both the ride and our partnership with ProSlide.”

Dax Eddy, Jamberoo Action Park

The impressive five-story **TORNADO 45** excites guests long before they get in the raft. Visible from miles away, the huge funnel lets guests enjoy the ride from a viewing platform, whether they try it or not!

The 45-foot (14 m) funnel offers all the benefits of the TORNADO 60 but is scaled for slightly tighter spaces and more modest budgets. Because the funnel is a little smaller, everything happens a little faster.

A consistent guest favorite, TORNADO 45 is built from award-winning technology.

TORNADO® 24

Fast and furious.

88
4 Person

~720
Per Hour

Water Country USA, USA

What's even better than one ProSlide TORNADO? More!

The **TORNADO 24** is perfect as a hybrid ride with two or more high-energy funnels in one ride path. Because the TORNADO 24's slightly smaller funnel size makes everything happen faster, it offers excitement and variety for park guests.

When you combine multiple TORNADO 24s – or connect with bowls or walls – you deliver one-of-a-kind thrills!

TORNADO® 18

Fun and friendly.

2 Person

~600
Per Hour

Canada's Wonderland, Canada

The smallest of the family, the **TORNADO 18** is the perfect adventure ride with two or three funnels in a row for maximum variety.

Kids and adults alike love the adventurous ride and the surprising 'slow-and-go' tempo.

The TORNADO 18 offers funnel excitement scaled for smaller spaces and more modest budgets.

Parents can join their kids on this family-scaled ride, a consistent guest favorite.

Walls

Big wave surfing.

Ride experience. The high-speed in-run cranks riders around back-to-back curves and dips, revving up the suspense before dropping them through a steep chute and onto the wave!

Rafts sweep up and across the curved wall, climbing higher and hanging in zero gravity longer than any other wall ride on the market. Riders wonder if they'll tip. The physics of our wave-wall won't let them...but they don't need to know that!

From high up on the wall, the narrow out-run looks like the eye of a needle. Will the raft make it through? Absolutely! Our ride path is predictable, no matter the raft weight.

Exclusive technology. ProSlide walls look slick and are complex, high-performance riding surfaces.

Based on ProSlide TORNADO technology, these rides use the physics of the patented true funnel shape to create the same high thrills.

A breakthrough innovation over the older wide, flat walls, ProSlide curved walls:

- Send rafts up the wall faster, higher, with longer hang-time.
- Deliver a consistent exit into flumes as narrow as 90 inches (2.3 m).
- Ensure maximum safety and high capacities.
- Use less fiberglass because of their precise ride path.

Industry leadership. 27 wall ride installations since 2012.

Learn more. www.proslide.com/Walls

“

ProSlide helped us set a new standard for thrill rides in Europe.

Hans Ericsson, Skara Sommarland

”

TornadoWAVE™

Conquer the wall.

88
4 Person

~720
Per Hour

“Our history with ProSlide is long and successful. We know we can count on them.”
Fred Kenney, Golfland

With its high curved walls, ProSlide **TornadoWAVE™** commands attention in any park. The TornadoWAVE drops jaws around the world as it sends four to six-person rafts into near-vertical, zero gravity moments.

With capacities of ~720 riders an hour, it brings water parks one giant step closer to meeting guest strategy and targets.

Adding more iconic features – like bowls or funnels – to the already-thrilling ride path creates an even more unique ProSlide hybrid ride.

“ProSlide stands behind their work, unlike anyone else in the industry.”
Todd Nelson, Kalahari Resorts

Roseville Golf and Country Club, USA

Kalahari Pocono Mountains, USA

PIPElineWAVE™

Catch the wave!

2 Person

~360
Per Hour

Holiday World, USA

More compact than the TornadoWAVE, the two-person **PIPElineWAVE™** delivers the same incredible thrills.

Its smaller footprint fits well in tight spaces and smaller budgets, while still delivering capacities of ~360 guests an hour. It's the perfect size to include in a multi-ride custom complex.

“We greatly value our relationship with ProSlide. And our guests look forward to riding their attractions again and again.”
Matt Eckert, Holiday World Splashin' Safari

Six Flags White Water, USA

Bowls

Revolutionary joy ride.

Ride experience. Not only are ProSlide bowls the best in the world, they are also the most popular.

In these bowl rides, riders or rafts race through a steep serpentine in-run, then shoot into the wide-open bowl high on the wall for peak thrills.

Glued to the wall by centrifugal force and shot forward by momentum, they speed around the perimeter, the bowl’s engineered shape creating the smoothest, safest rotations. As rafts or riders slow, they move to the center for a quick and exciting exit.

Exclusive technology. Entry speed and bowl shape create an electrifying bowl ride in perfect safety while delivering the highest possible capacities.

How do we avoid the exit bottlenecks that plague other manufacturers rides? We invented our patented CorkScrew™ exit with precisely-positioned jets to move guests through the exit without fail. It works so well that many operators dispatch a second raft before the first exits, driving capacities even higher.

Industry leadership. 175+ bowl ride installations since 1999.

Learn more. www.proslide.com/Bowls

“

That we have close to 150 ProSlide rides in our parks is a testament to their innovation and ability to deliver.

John Odum, Six Flags

”

BehemothBOWL™ 60

Into the vortex.

88
4 Person

~720
Per Hour

OCT Shanghai Maya, China

In this massive bowl ride, four riders travel face-to-face on our CLOVERleaf™ tube as they slide down a steep inrun, then shoot into the wide-open bowl, high on the wall for peak thrills.

Winner of the 2003 IAAPA Industry Impact Award, the **BehemothBOWL 60** is the world's largest bowl with a 60-foot (18 m) diameter.

Its big size and big thrills serve up maximum impact and buzz.

BehemothBOWL™ 40

Enter the whirlpool.

55
5 Person

~900
Per Hour

Six Flags Over Georgia, USA

BehemothBOWL 40 is a 40-foot (12 m) bowl that delivers massive capacities of ~720 to 900 riders per hour.

It revolutionized the water ride industry by integrating with other iconic features in a single ride path. These hybrid rides, with one-of-a-kind thrills, are another world's first for ProSlide.

CannonBOWL™ 40

Blast into orbit.

2 Person

~360

Per Hour

Carowinds, USA

ProSlide's **CannonBOWL™ 40** was the world's first tubing bowl. And is still the hottest-selling bowl ride in the world.

The 40-foot (12 m) bowl has the same thrilling ride as the IAAPA Industry Impact Award-winning BehemothBOWL but in a smaller footprint.

It's ideal for a ProSlide custom complex, with multiple rides on one tower.

CannonBOWL™ 30

Spin cycle.

2 Person

~360

Per Hour

Wet'n'Wild Hawaii, USA

The compact **CannonBOWL 30** has a tight radius on its 30-foot (9 m) bowl that provides a truly unparalleled centrifugal experience.

This adrenaline-pumping attraction is the perfect solution for small spaces and tight budgets, easily integrating into a multi-ride complex.

Pair up dueling bowls for great visual impact and double the capacity!

ProBOWL™ 30

Body rocket.

Body

~120

Per Hour

Mont Cascades, Canada

This high thrill body slide turns riders into rockets as they are launched from a dizzying high-speed in-run straight into a cyclone of water.

The more hydrodynamic a rider's body position, the higher the speed. More speed means more orbits of the bowl before free falling into the splash pool below.

The **ProBOWL™ 30** fits in the tightest spaces, indoors or out, with its 30-foot (9 m) bowl and compact free fall exit.

Mirror two dueling ProBOWLS to fuel competition and double capacities.

Siam Park, Spain

Hybrid Rides

Back-to-back icons.

Ride experience. Guests love impressive rides. To meet the demand for ever bigger, more impactful attractions, ProSlide invented this entirely new category of water rides in 2008.

ProSlide hybrids combine iconic features like funnels, saucers, bowls and walls into a single ride path. These big hitters are connected with classic serpentine flumes that vary the tempo and keep anticipation high.

Take the excitement over the top by including a LIM or BLAST water coaster to create steeper hills and drops.

Exclusive technology. Each ProSlide hybrid water ride is built to suit your park perfectly: customized to your desired thrill level, topography, target capacities and budget.

How can only ProSlide design hybrid rides that are equally thrilling, safe and efficient?

- Our deep technical expertise lets us create almost any combination of rides.
- The predictable ride path of each individual feature ensures maximum safety.
- Our widest range of features and fiberglass profiles gives us an almost infinite number of building blocks.

Industry leadership. 35 hybrid ride installations since 2008.

“

*Singha's extreme curves and adrenaline-pumping drops
will drive guests to our park for years.*

Christoph Kiessling, Siam Park

”

FlyingSAUCER™/RocketBLAST™

3 Person

~540
Per Hour

Siam Park, Spain

Combining two world-first rides into a single high-thrill experience. **FlyingSAUCER** features with a **RocketBLAST** water coaster takes the water riding experience to a whole new level.

Thrill-seekers blast up and down steep water coaster hills, speed through dark tunnels, and rocket onto the wide-open expanse of the massive saucer-shaped features. The steep angle of the saucers creates a ‘drop-and-dive’ sensation as riders race along its edge.

Launched at Siam Park, Tenerife, Spain – and branded ‘Singha’ – this ride will even further solidify Siam’s Trip Advisor rating as the number one water park in the world!

HydroMAGNETIC® MAMMOTH®/ TORNADO® 60

6 Person

~1080
Per Hour

Everland Caribbean Bay, South Korea

Yas Waterworld, UAE

Six riders feed off each other’s excitement through the steep climbs, high-speeds and sharp turns of the HydroMAGNETIC MAMMOTH water coaster in-run.

Suddenly, their raft drops down an extreme 100% grade and explodes into the massive TORNADO 60 funnel. There they swing several times, between near-vertical weightlessness and high compression in the dips, before being pulled into the next set of high-speed hills and turns.

Gravity smoothly alternates with linear induction motor (LIM) technology to power the high-energy coaster. Rafts aren’t attached to the ride: they’re sliding!

The **HydroMAGNETIC MAMMOTH/TORNADO 60** is the fan favorite at two world-class water parks, dwarfing everything else in the park.

Two huge, award-winning technologies in one exhilarating ride path. That’s a true icon.

TORNADO® 24/TORNADO® 60

88
4 Person

~720
Per Hour

Tieling La Viva, China

Two award winning funnels combine to create a world-first Hybrid!

Smooth turns through the dark tunnel guide rafts into the TORNADO 24. Volleying through several oscillations, rafts level-out towards the center of the first funnel. Another gentle turn then they barrel down and across the massive TORNADO 60 funnel with nerve-wracking momentum. Rafts swing through several high-banking, zero-gravity moments before being pulled through the runout and into the splash pool below.

Combining features delivers the highest impact experience and ultimate anchor attraction. Add sound and lighting effects and you have a complete entertainment center! This first **TORNADO 24/TORNADO 60** at Tieling La Viva will undoubtedly be a guest favorite.

BehemothBOWL™ 40/ TornadoWAVE™

88
4 Person

~720
Per Hour

Elitch Gardens, USA

2014's IAAPA Best New Water Ride Award Winner!

Thrill-seekers on four-person rafts barrel through twisting tunnels before shooting out into the huge bowl, high on the wall for maximum thrills. As they slow slightly through the revolution, riders gather their courage. Something's coming and it's going to be wild!

Suddenly, the raft is sucked through the vortex of the bowl at triple speed and through a stomach-dropping chute! Rafts plunge at a 100% angle onto the TornadoWAVE wall. A nail-biting zero gravity moment as they make a wide, sweep across the wall. Then a slide through the narrow exit. Screams around every slippery turn!

The showpiece attraction at Six Flags Over Georgia's multi-million dollar Hurricane Harbor water park, ProSlide's **BehemothBOWL 40/TornadoWAVE** hybrid ride creates excitement from every corner of the park.

"Our Tsunami Surge combines great thrills and tremendous throughput for our guests."

Dale Kaetzel,
Six Flags Over Georgia

Six Flags Over Georgia, USA

TORNADO® 24/ TornadoWAVE™

88
4 Person

~720
Per Hour

Adventure Island, USA

Rafts carve through a dark serpentine tunnel, then drop suddenly through a chute into the TORNADO 24 funnel, where they swing between zero gravity moments and dizzying drops.

Then back to the flumes and on to the next thrill: the TornadoWAVE!

Rafts sweep up and across the massive curved wave wall, climbing higher and hanging in zero gravity longer than on any other wall ride on the market.

Rushing off the wall, riders are swept through a thrillingly narrow exit to a curved out-run that ends with the accelerating bumps of the TurboMAMMOTH™ for a final thrill.

Offering capacities reaching ~720 riders an hour in four-person rafts, this hybrid is thrilling guests and driving higher attendance and capacities.

The latest **TORNADO 24/TornadoWAVE** hybrid ride can be found at Adventure Island in Tampa Bay, Florida.

Water Country USA, USA

TORNADO® 24/BehemothBOWL™ 40/ TORNADO® 24

88
4 Person

~720
Per Hour

Seorak Waterpia, South Korea

This hybrid water ride gets its unbeatable thrills from sudden tempo changes and a completely dark ride path.

Smooth serpentine sections end suddenly as rafts burst into each big, open feature. Rafts plummet steeply into the **TORNADO 24** funnels, where they swing between zero gravity moments and dizzying drops. Then back to the flumes.

Riders shoot into the **BehemothBOWL 40**, high on the wall for peak thrills, spinning around the edge before dropping through an exciting exit. The quick changes from one experience to the next keep riders guessing and heighten anticipation.

With capacities reaching ~720 riders an hour in four-person rafts, this hybrid is thrilling guests and driving higher attendance and capacities in Seorak Waterpia, South Korea.

TORNADO® 24/TORNADO® 24/ TORNADO® 24

88
4 Person

~720
Per Hour

Wet 'n Wild Sydney, Australia

After a series of serpentine turns, rafts blast into the first TORNADO 24 funnel. They dip low and launch up the opposite wall, hanging near vertical and weightless before dropping into another swing. A few more swings and the raft is pulled into the next set of high-speed flumes.

Anticipation and surprise intensify as riders move between smooth, back-to-back turns and stomach-dropping thrills in the funnels, not knowing what to expect next.

This **multi-TORNADO hybrid** water ride offers capacities reaching ~720 riders an hour with four-person rafts. It's thrilling guests and driving higher attendance at water parks around the world!

"ProSlide's innovation brought our vision to life"

Chris Warhurst, Wet'n'Wild Sydney, Australia

TORNADO® 24/ BehemothBOWL™ 40

Aquopolis Villanueva, Spain

©Chris Matterson Photography

Wyndham Leisure RALC, Australia

The **TORNADO 24/BehemothBOWL 40** custom hybrid delivers a unique showcase water ride that thrills adventure riders and keep families coming back.

Adding simple special effects, like the translucent rings on the fiberglass flumes, multiplies the sensory experience and enhances the feeling of speed.

And for parks with a hill on their site, like Aquopolis Villanueva, we can use that topography to reduce the cost of a steel structure.

BehemothBOWL™ 40/ TORNADO® 45

88
4 Person

~720
Per Hour

Center Parcs Elveden Forest, UK

After a series of smooth back-to-back curves through dark tunnels, rafts shoot into the wide open **BehemothBOWL 40**, high on the wall for peak thrills.

Rafts make one perfect revolution and exit the bowl, where they begin the stomach-dropping, free fall descent straight into the **TORNADO 45** funnel.

Riders dip low in the funnel, then sweep high up the opposite wall for that unparalleled zero-g feeling. Back and forth a few more times, then out the serpentine exit. Non-stop entertainment!

At Center Parcs Elveden Forest, ProSlide custom designed this hybrid ride to fit into their tight space by virtually stacking the features. The configuration gives their guests an exciting, intense ride.

BehemothBOWL™ 40/ BehemothBOWL™ 40

5 Person
~900
Per Hour

Smooth serpentine sections come to a sudden end as rafts burst into each big, open BehemothBOWL 40.

High on the wall for peak thrills, rafts speed around the edge of the bowl, completing a single rotation before dropping through an exciting exit and on to the next thrilling bowl.

The quick changes from the consistent tempo of serpentine turns into the wide-open sweep of the smooth bowls keeps riders guessing and heightens anticipation.

BehemothBOWL 40/BehemothBOWL 40 offers capacities reaching 900 riders an hour with five-person rafts.

This hybrid is thrilling guests and driving higher attendance at Wild Wadi, UAE, Piscilago, Colombia and other parks around the world.

Wild Wadi, UAE

Custom Complexes

Tower of thrills.

Ride experience. Completely tailored for each water park, ProSlide custom complexes combine almost any mix of rides on a single tower to perfectly match your footprint, demographics, target capacities and budget.

We can tightly fit body slides, tubing and rafting rides on multiple levels. Everyone finds a favorite ride!

Exclusive technology. ProSlide's custom complexes truly showcase our design expertise, innovative products and best practice knowledge. Water slide towers gain efficiencies, increase capacities and lower costs in many ways:

- Multiple rides share the same steel towers, supports, stairways and platforms.
- Our wide variety of fiberglass flumes lets us intricately intertwine almost any combination of rides to make the most of space and infrastructure.
- A shared pool serves many rides.
- Compact start tubs save space on tower platforms.
- Line-of-sight ride layouts allow maximum safety with less attendants.
- Stairways and queuing areas are designed to eliminate bottlenecks.
- Vehicle return and storage is shared for maximum efficiency.

Industry leadership. 80+ custom complex installations since 1992.

Serpentine Rides

Adventure for the whole family.

Ride experience. The most popular water rides in the world, ProSlide serpentine slides are truly classic. Fiberglass flumes snake down slopes, thrilling riders with back-to-back curves, drops and chutes.

The ProSlide compound curve is key to our highly predictable ride path. We alternate the radius of our curves between long and short for high excitement in maximum comfort. Your guests get a smoother, tighter ride with stronger g-forces. You get big capacities, safe riders and repeat customers!

Exclusive technology. Three decades of evolution, and ProSlide is still the design leader of the massively popular serpentine water ride.

- Our invention of MAMMOTH family rafting rides took the industry to new levels when we doubled the width of our ride flumes and tripled their height!
- Face-to-face WhirlyWHEEL™ tubes – another ProSlide invention – let friends share the thrills and chills of the ride.
- Our twin-entry loading system gives riders ample time to settle in to keep capacities high.

Industry leadership. 1,685+ serpentine ride installations since 1987.

MAMMOTH®

Wild and woolly.

6 Person

~1440
Per Hour

Nashville Shores, USA

Kentucky Kingdom, USA

Wet'n'Wild Splashtown, USA

The original mega-raft water ride delivers fun for groups and high capacity for parks. Friends and family climb aboard a four or six-person raft to share an unforgettable adventure face to face.

Rafts rocket through the winding **MAMMOTH** channels, a breathtaking series of back-to-back curves, drops and vortex loops.

The wide, sweeping flumes and compounded curves are engineered to position the raft high on the walls, injecting plenty of hang time on the steep banks.

“ProSlide goes above and beyond to deliver their rides on time.”

Jody Kneupper, Wet'n'Wild Splashtown

PIPELINE™

Double switchbacks.

2 Person
~600
Per Hour

Mountain Creek, USA

The world's best two-person serpentine water ride, the ProSlide **PIPELINE™** is also the most popular!

Tubes push the limits of gravity as they soar to the top of banked 180° and 360° curves in this classic thriller.

Combining several PIPELines on a single tower – with customized ride paths and features – creates a high-volume custom complex with enormous appeal.

TWISTER™

The ultimate body slide.

Body
~240
Per Hour

ProSlide **TWISTER™** is the ultimate body sliding adventure.

Riders speed through back-to-back turns, 360° loops and high-banking curves in our fiberglass slides. The unique flume profiles and high banks keep riders in a stable position for more comfort and safety.

This is a consistent performer that rounds out the guest experience and provides maximum value for your budget.

Galaxy Resort & Casino, Macau, China

Speed Slides

Pitch perfect.

Ride experience. ProSlide speed slides are in more water parks than any others for good reason: superior ride performance, massive impact and safety.

ProSlide speed slides were created for the true adrenalin-seeker. With grades as steep as 80°, our speed slides are legendary, etched in guests' memories for years to come.

Straight slides offer a heart-stopping plunge. Loops and twisters create high-gs through curves and 360s. Add a SkyBOX™ launch system and take these speed slides over the top. Truly breathtaking.

Exclusive technology. ProSlide revolutionized speed slide design with a narrow, U-shaped profile that eliminates side-to-side movement for riders. The innovative shape also let flumes double in height to allow high speeds in maximum safety.

Offer guests even more speed and excitement by adding a SkyBOX drop launch system. Now in its third generation, the SkyBOX system is the most advanced in the world for safety, performance, high capacity and efficient operations.

Industry leadership. 540+ speed slide installations since 1987.

Learn more. www.proslide.com/SpeedSlides

“

***ProSlide went above and beyond to deliver.
Their attention to detail on our project was greatly appreciated.***

Wild Wild Wet

”

SkyBOX™

The ultimate challenge.

A **SkyBOX** drop launch system takes our speed slides – or ProBOWL solo ride – over the top.

Standing on a trap door in a transparent SkyBOX pod high above the water park, thrill riders feel the adrenaline rush as the floor suddenly drops out and they free fall into the narrow flume below.

It's all a blur as riders instantly accelerate to top speed through the near-vertical chute, never slowing as they loop, bump or plummet straight down.

Every ride ends with the same smiles, high-fives and top marks from guests!

SkyBOX's 80° drop angle is the steepest in the industry. 60° and 70° options add design flexibility for new and retrofitted rides.

Now in its third generation, ProSlide SkyBOX is the most advanced vertical drop launch in the world for safety, performance, high capacity and efficient operations.

Add a SkyBOX to a ProSlide SuperLOOP™, FreeFALL™, MultiBUMP™ or TurboTWISTER™ speed slide to create truly breathtaking experiences for your guests.

Plopsaland, Belgium

SuperLOOP™

Twist and shout.

Body
~180
Per Hour

Roaring Springs, USA

The highest capacity looping speed slide on the market, ProSlide **SuperLOOP** entertains thrill-seekers with a sheer drop and a perfect, glued-to-the-wall circle.

Standing in the transparent SkyBOX launch pod high above the water park, thrill riders feel the adrenaline rush as the floor suddenly drops out and they free fall into the narrow flume below.

It's all a blur as riders instantly accelerate to top speed through the near-vertical chute before transitioning smoothly into the tight 360° SuperLOOP.

Powerful g-forces glue the rider to the wall as they round the loop. The run-out gently slows riders as they exit.

“ProSlide has provided us with excellent service and outstanding water rides for 15+ years.”

Pat Morandi, Roaring Springs

FreeFALL™

Rapid altitude loss.

Body
~180
Per Hour

Kentucky Kingdom, USA

A six-story or more free fall into six inches of water! That's what it's like to ride **FreeFALL**, the extreme high speed, open-flume body ride.

A fast, straight plummet down an almost-vertical drop delivers the extreme thrills and high velocities many riders crave.

Compound vertical curves and narrow flumes allow guests to transition smoothly into the final run-out, where many parks treat them to an incredible themed experience. A tunnel through a shark tank? Unforgettable.

“It's always about the rides – and that's why we rely on ProSlide.”

Ed Hart, Kentucky Kingdom
and Hurricane Bay

TurboTWISTER™

High-speed fun.

~180
Per Hour

MultiBUMP™

Turbulent descent.

~180
Per Hour

Piscilago, Colombia

This amped-up version of our classic serpentine TWISTER water ride has guests screaming all the way to the end.

Riders feel the world drop out from under them as they blast through the narrow looping and twisting tunnels on one of the most exhilarating water rides around!

A high speed, enclosed body slide, the **TurboTWISTER** features back-to-back curves and tight 360° loops that send riders screaming to the end.

TurboTWISTER uses ProSlide's proven compound curves, ensuring a smooth and exciting ride experience in maximum safety and comfort.

The **MultiBUMP** body slide drops riders at high speed over a series of breathtaking near-vertical pitches.

Each bump is carefully engineered with ProSlide's compound vertical curves and narrow flumes to produce the smoothest transitions and the straightest descent.

Themed elements can make this ride unforgettable.

Riding the **TurboMAMMOTH**, thrill-seeking friends and family share an electrifying high-speed ride through drops and multiple high-compression bumps.

Each steep pitch ends in a slowing bump, creating fantastic alterations between high compression and zero-gs.

Speed builds in stages, intensifying the ride experience until the raft comes skimming to a stop.

The **TurboPIPEline™**, a pumped-up version of the classic serpentine PIPEline water ride, lets two riders share the thrill of the full-throttle plummet.

Thrill-seeking friends and family share a sensational high-speed ride through back-to-back curves and multiple zero-g drops.

Two-person tubes push the limits of gravity as they soar to the top of banked 180° and 360° curves in this classic thriller.

TurboMAMMOTH™

High-speed mega-rafting.

~900
Per Hour

Canada's Wonderland, Canada

TurboPIPEline™

High-speed tubing.

~360
Per Hour

Hyland Hills Waterworld, USA

Tosselilla Sommarland, Sweden

Racers

Own the podium.

Ride experience. In ProSlide racers, riders compete with friends in neighboring lanes, launching themselves headfirst onto a mat and vying for first to the finish.

Whether fast tight loops, twisting braided tunnels or open multi-bump descents, the ride is always thrilling and the competition intense.

Low lane separators let riders see who's winning all the way down! Red and green start lights and an exit timing system can boost the action.

The sheer joy of competition keeps riders coming back again and again.

Exclusive technology. ProSlide mat racers are the most popular in the world. Why? Because every element of these rides has been designed to optimize entertainment, operations and safety:

- Each curve, dip and bump is perfectly engineered to deliver smooth transitions and keep riders anchored in the flume.
- Seamless transitions from closed to open flumes create a smooth ride.
- Non-skid run-outs ensure riders exit safely.
- Splashguards on outside lanes reduce water loss.

Industry leadership. 170+ racer installations since 1994.

Learn more. www.proslide.com/Racers

“

ProSlide's custom design experience delivered a thrilling, high-capacity ride that executes flawlessly.

Tommy Bauer, Tosselilla Sommarland

”

KrakenRACER™

Belly of the beast.

Mat

~900
Per Hour

Wet 'n Wild Orlando, USA

In the **KrakenRACER™**, riders battle each other for speed along the braided arms of this legendary titan before blasting into a rolling, high-seas finish. Another ProSlide invention!

High above the pool, mat-riding competitors launch themselves headfirst into side-by-side tunnels to race to the bottom. Riders rocket through the twisting tunnels before accelerating into the open multi-bump racing lanes.

Racers drop and bump down the home stretch, enjoying speed, compression and zero gravity moments as they race to the finish line.

The winner of IAAPA's 2011 Best New Waterpark Ride and WWA's 2011 Innovation Award, KrakenRACER is perfect for all ages.

OctopusRACER™

Racing loops.

Mat

~900
Per Hour

OCT Shanghai Maya, China

With looping tunnels to start the course and wide-open finish lanes, this water racer delivers the excitement and variety competitors crave.

The ProSlide **OctopusRACER™** was the first enclosed looping racer on the market. Many riders slide at once, creating high capacities that grow as you add lanes.

The loops can be configured to suit your site – all on one side or mirrored. This racer has long-lasting appeal for riders of all ages.

ProRACER™

The original mat racer.

Mat

~900
Per Hour

Vinpearl Land, Vietnam

Winner of an IAAPA Best New Waterpark Ride award, **ProRACER™** was the world's first pre-engineered, multi-lane mat racer. The sheer joy of competition keeps riders coming back again and again.

Riders race against friends in neighboring lanes, launching themselves headfirst down a two to ten-lane multi-bump slide.

Each bump drops riders into a brief compression, then sends them weightless into the next pitch. Every chute adds speed to increase thrills.

Red and green start lights and an exit timing system can intensify the action.

"We gave ProSlide a challenge and they really delivered."

WaterKINGDOM™

Water park within a park!

A ProSlide **WaterKINGDOM** is a water park-within-a-park, created especially for families.

This single, integrated platform combines ProSlide's iconic and classic water rides, RideHOUSE aquatic play structures, and kids rides to create a customized family thrill zone.

Kids love the interactive toys, battle zones, dumping buckets and KIDZ rides. Teens and adults can't get enough of serpentes, bowls, funnels and more.

The visual impact and entertainment value of this platform is undeniable.

Exclusive technology. WaterKINGDOMs are completely tailored to your park and come with a built-in expansion strategy.

Start with a RideHOUSE aquatic play structure, a set of core rides and all the connections to grow in later years.

Aquatic play. Your ProSlide WaterKINGDOM delivers maximum fun to 'kids' of all ages.

A great experience means guests spend more time in the park and keep coming back!

RideHOUSE®

Aquatic adventures.

Ride experience.

A play structure amped up with the world’s best water rides! Kids enjoy hours of fun in these self-contained, high variety aquatic adventure zones.

RideHOUSE aquatic play structures guarantee high impact and large capacities.

- Bowls, funnels and racing slides are authentic mini versions of our iconic rides.
- Water toys and spray features with layers of interaction create more engaging play.
- A huge bucket or water wheel builds anticipation for the big water dump.
- A separate area for young children with easily accessible toys offers parents peace of mind.

ProSlide has created a full range of exciting combinations that entertain families visit after visit. With numerous theming packages and endless features, there’s a RideHOUSE structure for every budget and footprint.

	Features	Slides
RideHOUSE 600	114	8
RideHOUSE 500	103	7
RideHOUSE 400	81	6
RideHOUSE 300	70	5
RideHOUSE 200	42	4

11,000 ft² / 1022 m²

RideHOUSE 600
Adventure empire.

Our biggest RideHOUSE: an anchor attraction with maximum impact, large capacities and the most family fun.

7,050 ft² / 655 m²

RideHOUSE 500
Explore and discover.

This complete high-energy entertainment center is loaded with rides and features that keep families engaged for hours.

6,480 ft² / 602 m²

RideHOUSE 400
Imagination creation.

Designed for exploration and discovery, this larger structure keeps kids engaged and interacting.

6,000 ft² / 557 m²

RideHOUSE 300
Interactivity overload.

This compact but adventurous family fun center is ideal for both indoor and outdoor parks.

4,700 ft² / 437 m²

RideHOUSE 200
Discovery zone.

Our most compact structure for smaller facilities and budgets packs a lot of family fun into a tight footprint.

Completely customizable.

Fun for all sizes. Multiple paths and stairways create options that increase the sense of discovery.

And a separate area for young children with stairs, slides and easily-accessible toys keep your youngest guests safe, offering parents peace of mind.

The iconic tipping bucket, available in three sizes, is timed to dump up to 550 gallons every few minutes. A bell timer alerts guests when the bucket is ready to tip and spray is on the way!

Towering at the top of every RideHOUSE structure, the roaring waterfall adds anticipation and liquid sensation to these massive complexes.

Slide grouping. Strategic slide placement for optimal sight lines and 50% fewer attendants - the lowest requirement in the industry.

Intelligent design.

Attention to detail. Intelligent design innovations, like marine-coated galvanized steel and non-skid fiberglass, reduce cost and increase durability.

A full suite of new ProSlide-exclusive toys inspired by children and designed for maximum engagement. Durable HDPE toys look better, last longer and are easy to brand.

More adventure: Brave the battle zone where opponents show-down, blasting water guns directly at one another from parallel decks.

Hide and surprise friends by activating water curtain dumps and floor jets. Or stay low and use ground water shooters to spray guests on higher decks. We guarantee zero dry spots on these structures!

Truly immersive experience: World-class customizable theming allows guests to engage more fully in the play.

And KIDZ versions of our award-winning thrill rides means your younger guests get their own KIDZ Bowl™, racers and more. Exhilaration that's scaled to size!

Kids

Pocket-sized legends.

Wet 'n' Wild Sydney, Australia

ProSlide offers the widest variety of kids' rides, with the best choices in every category.

The little ones are thrilled to ride their own versions of our bowls, funnels, racers and serpentine slides that look and – more importantly – feel like our iconic attractions.

For ProSlide, water slide safety is always top of mind. Our **KIDZ** rides are completely designed with your youngest guests – and their parents – in mind.

Our rides have:

- Smooth, safe ride transitions and easy, low-grade landings.
- Shallow pools and optimal sight lines.

The bottom line for your water park is maximum guest satisfaction – and repeat visits!

Kalahari Pocono Mountains, USA

OCT Shanghai Maya, China

Authentic mini versions.

	Vehicle	~Capacity
KIDZ Tornado 24	1-2 Person	360/hr
KIDZ Tornado 12	1-2 Person	360/hr
KIDZ Bowl 14	Body	180/hr
KIDZ Pipeline	1-2 Person	360/hr
KIDZ Twister	Body	300/hr
KIDZ MiniRiver	Body	600/hr
KIDZ ProRacer	Body	600/hr
KIDZ OctopusRacer	Body	300/hr

Kids Funnels

Tame the tornado.

Kids and parents alike have a blast on these impressive funnels engineered for a gentler ride.

The **KIDZ Tornado® 24** provides the thrill of oscillations without the zero-g sensations.

IAAPA's 2010 Best New Water Ride, **KIDZ Tornado® 12** offers gentle swings perfect for the youngest guests. In a compact footprint.

Kids Bowls

Mini spin.

Little ones love to ride this bowl slide, designed especially for them. It keeps them coming back again and again.

The **KIDZ Bowl™ 14** provides a gentle, but authentic, bowl experience.

Kids Serpentine Rides

Smile-makers.

Kids can ride solo or with an adult down these gently curving open tube and body slides.

The **KIDZ Pipeline™** tube ride is just a little bit faster for riders in single or double tubes.

The **KIDZ Twister™** is a classic serpentine body slide with smooth, gentle curves.

Kids Racers

Kicks for kids.

Mini Olympians are thrilled to race parents and friends in mini versions of our famous racer rides.

The **KIDZ MiniRiver™** lets many kids slide at once down a wide surface that may be bumped or straight, short or long.

The **KIDZ ProRacer™** offers safe competition for young ones down its two to eight-lanes.

The **KIDZ OctopusRacer™** takes riders through a 360° loop, injecting even more excitement and variety into the race!

Waves & Rivers

Crowd pleasers.

The cornerstone of every water park, wave pools and lazy rivers provide hours of entertainment for guests of all ages.

For some of your customers, these are the main attraction; like spending a day at the beach or floating down river. For other guests, they're the perfect break from high-thrill rides.

With massive capacities, ProSlide WAVES™ and ProSlide RIVERS™ deliver maximum value when combined with food and beverage and lounging areas, and extend park visits. When used strategically, ProSlide SURF™ is a proven revenue generator.

Why ProSlide? No other ride manufacturer knows water parks better – and not just because we own and operate one of our own. ProSlide is the trusted supplier to the world's most prestigious parks. They rely on us for complete solutions – from high thrill rides to aquatic play structures and now to wave pools, rivers and surfing attractions.

Our ability to customize every ride to fit your park perfectly is further extended with our rivers, wave pools and surf machines. We help you make the most of your park's natural features to ensure these attractions truly belong in your site.

“

I have just one word for ProSlide rides: AWESOME!

Robb Alvey, Theme Park Review

”

ProSlide SURF™

Ride the wave!

Now available **ProSlide SURF**. The world-class surf simulator entertains your guests, whether they ride it or just watch!

The unique surface shape of the ProSlide SURF is modeled after open ocean waves. The steeper section of the ride is perfect for launching tricks while the gentler area allows riders to smoothly complete their carves and transition from one trick to the next.

This profile – gently angled in the front and steep towards the back – also gives riders the ability to move side-to-side, front-to-back and into the air, maximizing the riding surface and extending their riding time.

ProSlide SURF caters to guests of all levels: standing surfers, as well as knee and body board riders. And because it's a skill-based attraction, guests return to your park over and over to hone their skills and learn new tricks.

This attraction is a spectator magnet! Your guests get just as much enjoyment watching the novice riders as they do cheering on the pros.

ProSlide WAVES™

Make a splash.

Who doesn't love spending time at the beach? Or floating down river with friends and family!

Introducing **ProSlide WAVES** and **ProSlide RIVERS**, attractions that appeal to the widest demographic of guests.

They provide hours of entertainment – without line ups. And keep your customers where you want them: in the park.

Our team of expert master planners can help you maximize the impact and value of these must-have attractions:

- Position them near food and beverage facilities to encourage guests to linger.
- Make them easily accessible for private events and after-hours functions to drive additional revenue.
- Add a big screen to the pool area to generate excitement and take advantage of sponsorship opportunities.
- Include a not-so-lazy river to create a whole new family adventure.

ProSlide RIVERS™

Go with the flow.

Creating the world’s best water rides.

30 years of continuous innovation.

Since 1986, ProSlide has pioneered almost every major water ride invention. Our extensive list of patents is a reflection of our drive to invent.

ProSlide-exclusive technology includes some of the most game-changing advancements in the industry. An example: our specially-designed linear induction motors (LIMs) that have forever changed water coasters. ProSlide HydroMAGNETIC coasters are covered by 15 patents alone.

But we’re not just innovating at the ride level. Over the decades, we’ve scrutinized every element of the water park experience and have worked to make improvements. Like the invention of twin entry loading systems that significantly improve capacities by doubling dispatch rates. ProSplash run-outs that eliminate the need for a pool exit, saving space. The ProSlide two-person WhirlyWHEEL tubes that allow guests to ride facing each other.

Right down to the fiberglass. It’s the fundamental element of our rides – and how we make it – that has the longest-lasting advantage for our customers. We take great pride in the fact that ProSlide fiberglass is among the thickest in the industry, making it not only more durable but also safer.

One reason our fiberglass performs is because every stage of the manufacturing process is visible to the production team. We inspect each piece to ensure both the fiberglass and the laminate meet the specifications, every time. And we run it through the most stringent testing. Tensile strength, abrasion wear, color and gloss retention: all of it scrutinized and optimized to ensure our rides stand the test of time.

Exclusive patented technology.
